SUMMARY

I am a MERN stack and full-stack web developer currently completing my BS in Computer Science with a 4.0 CGPA. I enjoy building web apps that look clean on the outside and run smoothly on the backend. I have good experience working with React, Node.js, Express, and MongoDB, and recently placed in the Top 7 at the UDEVs Hackathon for a secure, multi-user application I built.

SKILLS

- **Frontend:** React.js, JavaScript, Tailwind CSS, Bootstrap, GSAP, HTML, CSS
- **Backend:** Node.js, Express.js, MongoDB, JWT Authentication, REST APIs, CRUD
- **Tools:** Git, GitHub, Redux Toolkit, State Management, Role-Based Security

WORK EXPERIENCE

MERN Stack Intern | UDevs | Jan 2026 – March 2026

- Learned MERN fundamentals through hands-on tasks, state management exercises, and component building.
- Built digital dashboards to replace manual college registers and track asset statuses.
- Created distinct role-based views for Principals and HODs to audit departments.

Hackathon Winner (1st Rank) | UDevs | Feb 2026

- Won 1st Place by building a full-stack Agriculture Crops Management System in a 10-day.
- Designed practical tools to manage crop data and resources efficiently under a tight deadline.

PROJECTS

Agriculture Crops Management System | [\[Live Demo\]](#) | [\[GitHub\]](#)

Tech Stack: React.js, Node.js, Express, MongoDB, Tailwind CSS

- Built a 4-role access system for Admins, Farmers, Brokers, and Clients with separate dashboard permissions.
- Coded crop CRUD modules for Farmers, user management tools for Admins, and an order flow for Clients.
- Created backend logic to handle crop approvals, user status updates, and order delivery tracking.

Online College Assets Management System | [\[Live Demo\]](#) | [\[GitHub\]](#)

Tech Stack: React.js, Node.js, Express, MongoDB, Tailwind CSS

- Digitized college inventory workflows with distinct dashboard views for the Principal and HODs.
- Built real-time status tracking features to monitor new, damaged, or lost institutional assets.
- Programmed secure backend validation routines and added automated data exports to CSV files.

MERN Stack Blog Application | [\[Live Demo\]](#) | [\[GitHub\]](#)

Tech Stack: React.js, Node.js, Express, MongoDB, Tailwind CSS

- Developed a responsive web logging site with full backend CRUD capabilities for creating and managing posts.
- Handled client-side state management using Redux and integrated a secure image uploads.

EDUCATION

University of Science & Technology Bannu

BSCS | CGPA: 4.0 | 2022 – 2026 (Expected)

GPGC for Women Bannu | Bannu, Pakistan

FSC | 2020–2022
